

Haarband

v11277

Een prachtige haarband gedecoreerd met een organza bloem.

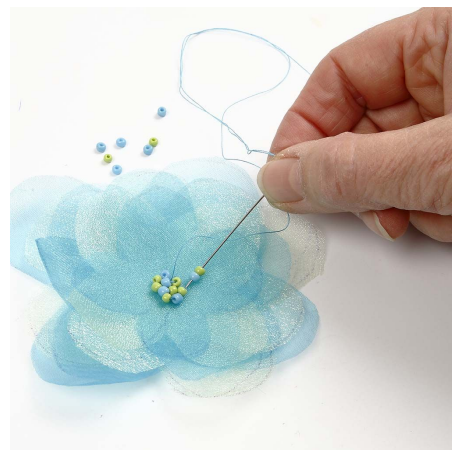

Hoe werkt het

1 Cut some long thin strips of organza to cover the hair band. Also, cut out four or five flowers.

2 Twist the long strips around the hair band. Attach the organza with the glue gun.

3 Stagger the cut out flowers and sew them together in the middle. Decorate with sewn on beads.

4 Glue the flower onto the hair band with the glue gun.

5 Finally heat with a heat gun. The organza will shrink so be careful and only do a small area at a time. Heat all the way around the flower.
