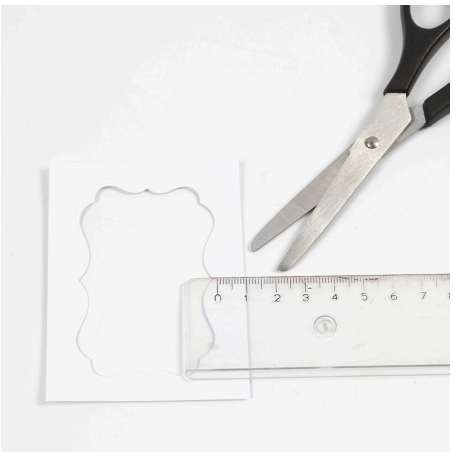
Uitnodiging met foto en geponste ballonnen met deco-folie

v15338

Maak zelf je uitnodigingen met geponste ballonnen uit karton en vellum papier gedecoreerd met deco-folie. De foto is geplaatst in een geponste lijst en geeft een passe partout effect.

Hoe werkt het

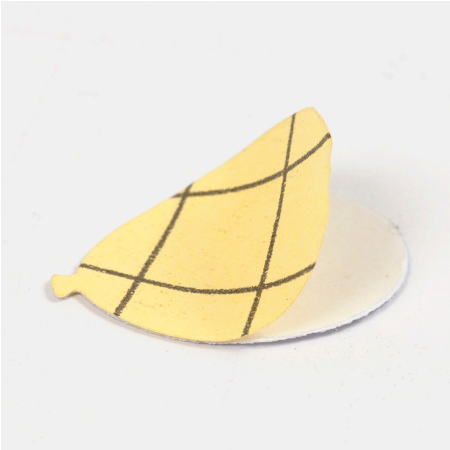
1 Punch out a frame from white card using plate C underneath + card + die + base plate B on top.



2 Trim the frame allowing a 1 cm border around the frame.

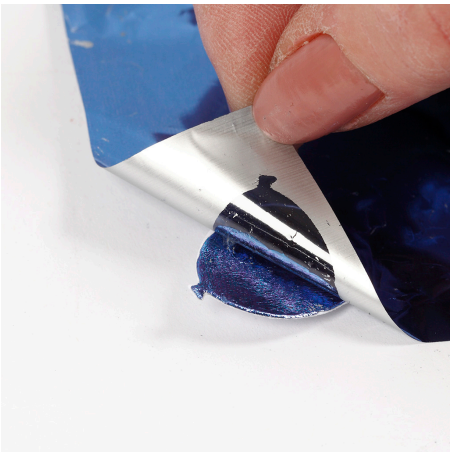
3 Print out a photo. Attach the photo, the text and the frame onto the front of the greeting card using double-sided adhesive tape.

4 Attach double-sided foil tape onto a piece of white card and punch out balloons using cutting plate C underneath and base plate B on top.



5 Remove the protective paper layer from the other side of the sticky double-sided foil tape.

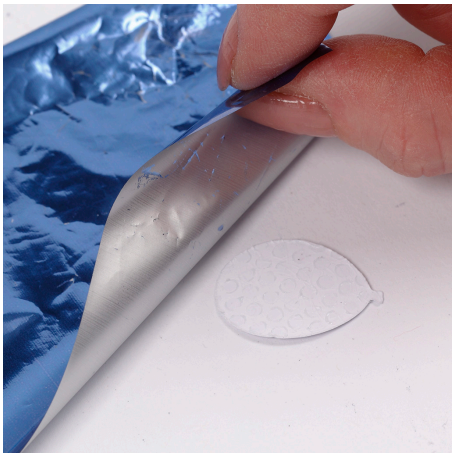
6 Place the deco foil on top and rub hard to attach it onto the sticky foil tape.



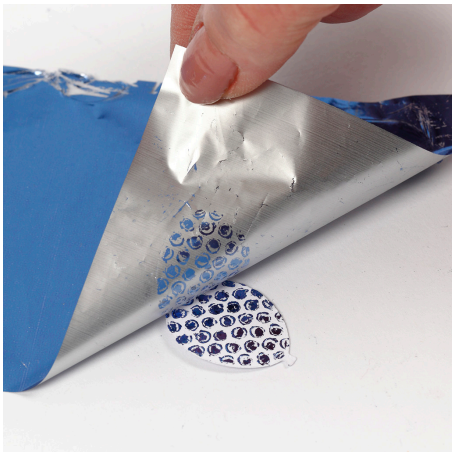
7 Carefully remove the sheet of deco foil. If the deco foil has not transferred completely or if there are any bumps or unevenness, just rub on some more deco foil.

8 You may punch out other balloons from card and decorate them with patterns by applying glue onto one of the balloon design silicone stamps.

9 Place a punched-out card balloon onto the glue in the silicone stamp and press gently to transfer the glue onto the card balloon.



10 Place the deco foil on top and rub hard to attach it onto the glue.



11 Carefully remove the sheet of deco foil.

12 Apply glue to the balloon strings silicone stamp using a glue pen.

13 Press the silicone stamp with the glue onto the invitation card.

14 Place the deco foil on top and rub hard to attach it onto the glue.

15 Attach some of the balloons onto the invitation card with double-sided adhesive tape. Highlight other balloons by attaching them with 3D foam pads.
