

Babushka's schilderen

v11528

Deze kleine schilderijen zijn gemakkelijk te maken met acrylverf.

Hoe werkt het

1 Paint the canvas completely black and let it dry. Draw the shape with white and fill the shape with white acrylic paint. Use plenty of water in your acrylic paint.

2 Draw all patterns and lines onto the white shape, and colour it in. Continue to use a lot of water in your acrylic paint to achieve a transparent effect. Now let it dry.
