

Scrapbooken

v11946

Een mooie combinatie van London papier, parelmoer karton en wit design karton. De schattige rand is gemaakt met een Fiskars Border & Corner Punch.

Hoe werkt het

1. Cut a piece of white design card measuring 11 x 11cm or 28 x 28cm. Use a Fiskars corner and border punch for punching a border along all four edges.

2. Cut out balloons, gifts and cake/candles using Fiskars shape templates. Decorate the gifts with ribbon. Also cut a few pieces of checkered paper, make a flower border and cut a round piece of green paper.

3. Attach the parts to a piece of pearlescent card using self-adhesive double-sided tape and 3D foam pads.

4. Attach the picture using 3D foam pads.
