Een hart met bladeren

v14834

Dit glazen hart is gedecoreerd met gestempelde designs en echte bladeren. Designs en hobbyvilt zijn aangebracht met decoupage lijmlak en de tekst is geschreven met een glas- en porseleinstift.

Hoe werkt het

1 Write text with a glass and porcelain marker. Fix the heart in the oven at 160°C for 90 minutes.

2 Dab the back of the leaf thoroughly with the ink pad. Carefully place the leaf between two pages in the drawing pad and press together thorougly.

3 Remove the print from the pad and leave to dry for the next step.

4 Place the glass heart over the leaf print and draw the outline of the glass heart onto paper using a pencil.

5 Cut out.

6 Apply a thin coat of decoupage lacquer onto the front (the print) of the cut-out paper heart.

7 Attach the cut-out paper heart onto the back of the glass heart.

8 Place the heart onto the craft felt, copy the outline and cut out another heart shape for the base. Apply a coat of decoupage lacquer onto the felt and attach it onto the paper heart.

9 Follow the same instructions for stamped leaves. Place the silicon stamp onto the acrylic block, apply paint onto the stamp using the ink pad. Stamp onto the cut-out paper heart.

10 Glass hearts with stamped leaf designs.
