Uitnodiging met kartkarton, deco-folie hart en strasstenen

v15337

Maak zelf uitnodigingen met kant karton, vellum papier, een deco-folie hart, satijnlint en strasstenen.

Hoe werkt het

1 Tear 2.5-3 cm wide strips of vellum paper in the same length as the greeting card.

2 Attach a vellum paper strip onto the front of the greeting card using double-sided adhesive tape.

3 Cut out a piece of lace patterned card for attaching onto the greeting card.

4 Use a glue pen to apply glue onto the back of the lace patterned card and attach it onto the greeting card.

5 Punch out a heart using the die-cutting and embossing machine. Build up your 'sandwich' from the bottom using cutting plate C underneath + double-sided foil tape + die + base plate B on top.

6 Remove the protective paper layer from only one side of the sticky double-sided foil tape heart and attach the heart onto the front of the greeting card.

7 Write text on the greeting card with a glue pen – you may write with a pencil first. Leave the glue until it is tacky; i.e. it's still sticky but doesn't stick to the fingers when touched.

8 Remove the protective paper from the other side of the sticky double-sided foil tape heart. Place the deco foil on top and rub hard to attach it onto the glue. Carefully remove the deco foil sheet.

9 Decorate with rhinestones.

10 Tie a bow using the thin satin ribbon and glue it on with a glue pen.
