

A two-piece transparent Plastic Heart hanging Decoration

v14508

This is a two-piece transparent acrylic heart. Glue is applied to the inside of one of the two halves. Glitter is sprinkled into the wet glue. The heart is assembled with a drawing inside which is made according to your imagination on the supplied piece of card. Use self-adhesive rhinestones and google eyes for further decoration. A satin ribbon is attached through the loop.

Hoe werkt het

1 Separate the heart into two halves and apply glue to the inside of one half.

2 Sprinkle glitter onto the wet glue and distribute it evenly by shaking the heart. Pour out the excess glitter.

3 Decorate the piece of card which is supplied with the heart using Colortime markers.

4 Glue on google eyes with rolling pupils if appropriate.

5 Decorate according to your taste with self-adhesive rhinestones.

6 Assemble the two halves and attach a ribbon through the loop at the top.
