

Geschenkverpakking met grote strik van papierstroken

v14736

Dit geschenk is ingepakt in Vivi Gade design cadeaupapier. Een grote stik is gemaakt van papierstroken en op het geschenk bevestigd.

Hoe werkt het

1 Cut two paper star strips into three equally long pieces each (we have used 25 mm wide paper strips in this example). Twist each paper star strip into the shape of a number 8 and glue. (Study the photo carefully).

2 Glue all six figure eights together staggered on top of each other to a large bow. Wrap the present in wrapping paper and ribbon and glue the bow on top at the end.
