

Hangende decoraties met veren op koperdraad

v14732

Deze hangende decoratie is gemaakt door een aantal stukken koperdraad in en om elkaar heen te draaien. De uiteinden zijn gedecoreerd met veren en Vivi Gade Design cut-outs.

Hoe werkt het

1 Print the template which is available as a separate pdf-file for this idea. Place the printed template on the design paper (with a different design on each side) and cut out the shapes through both layers of paper.

2 Cut five long pieces of brass wire in different lengths and assemble to make a bundle. Fold the bundle in half, make a loop and twist a couple of times as shown.

3 Make a small hole in each cut-out shape (make approx. 7 or 8 according to your taste) and attach one to each brass wire end, except two or three which are each decorated with a feather.
