

Labels van leerpapier en patchwork stof

v14903

Deze labels voor textiel en geschenken zijn gestanst uit leerpapier en gedecoreerd met patchwork stof.

Hoe werkt het

1 Die-cut your chosen designs. Follow the instructions on the die-cutting and embossing machine.

2 Cut a piece of faux leather paper for the back and a piece of patchwork fabric for the middle.

3 Sew the three parts together on the sewing machine.

4 These tags can be used for sewing onto cushions, bags and other textiles.

5 Tags with different designs and fabric patterns.

6 Tags as gift tags. Die-cut various designs. Here we have used two designs (dies) at the same time.

7 Place the cutting pad on top of the die and the faux leather paper.

8 Push out the die-cut design.

9 Make a hole with a hole punch and tie a piece of natural string through the hole.
