

Elf gemaakt van een terracotta bel met Foam Clay en Silk Clay

v15158

Deze elfen zijn gemaakt van terracotta bellen. Foam Clay glitter is gebruikt om de bellen te bedekken. Silk Clay is gebruikt voor de hoofden, handen en voeten.

Hoe werkt het

1 Cover the terracotta bell with Foam Clay.

2 The head: cover a polystyrene ball with Silk Clay. Attach Silk Clay ears, nose, eyes and mouth.

3 Attach the head onto the body with a blob of Foam Clay. Leave to dry.

4 The arms: cut a piece of pipe cleaner and model Silk Clay hands around each end. Attach the arms onto the back with a blob of Foam Clay.

5 The elf's hat and hair: Cut flax twine strands and place them on top of the head. Model an elf's hat from Foam Clay and press it over the hair and head. You may need to add extra Foam Clay for the hat.

6 Feet: Model Silk Clay balls for shoes or small feet. Place the edge of the terracotta bell body on top, push and leave to dry.
