Doos met notenkraker lijmfolie en deco-folie

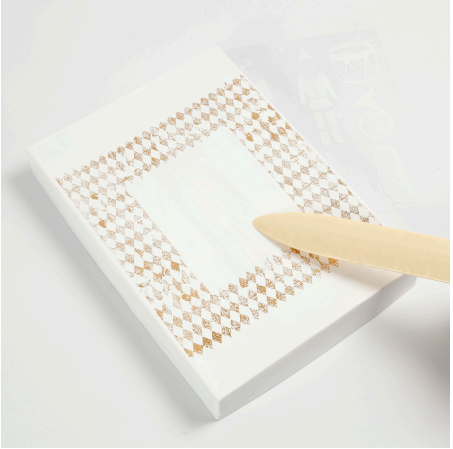
v15410

Verf een doos met Plus Color Acrylverf en decoreer met een notenkraker lijmfolie design en deco-folie. Je kunt de doos gebruiken als opbergdoos of als tafeldecoratie.

Hoe werkt het

1 Paint your chosen box with white craft paint.

2 Paint the box edges with antique red craft paint. Leave until completely dry.



3 Cut away your chosen glue foil design. Remove the thin protective plastic layer from the glue foil sheet. Attach the design onto box. Rub the glue foil design onto the box using a bone folder or similar to attach the glue design securely onto the papier-mâché surface of the box.

4 Remove the other protective plastic layer, revealing the glue designs. Place a piece of deco foil on top of the glue design and rub on firmly. Carefully pull off the deco foil. If the deco foil has not transferred completely, just repeat the process and rub on a new piece of deco foil. A tip: You get a vintage, antique patina when attaching deco foil to painted surfaces. For a sharp design, attach the deco foil directly onto paper or card.
