

Hangende decoraties met deco folie

v15567

Deze hangende decoraties zijn geverfd met Plus Color acrylverf. Daarna is deco folie aangebracht. Gebruik als decoratie voor iedere dag of als feestdecoratie.

Hoe werkt het

1 Colour in the edges and the flowers with Plus Color markers.

2 You may decorate the flowers in different colours and add dots for further decoration as illustrated in the picture.

3 Apply glue from a glue pen in the middle of your chosen flowers and leave the glue until it is tacky before attaching the deco foil. The glue mustn't dry completely.

4 Place the deco foil on top of the tacky glue and rub lightly with a finger on the foil. Carefully remove the deco foil.

5 Paint and decorate the back of the hanging decoration in the same way as the front.
