

Imaginative polystyrene spring figures

v16477

You are only limited by your imagination! This small, simple figure can be turned into anything with a lot of imagination, paint and a few decorations. Just look at how many different little creatures the figure has been transformed into here!

Hoe werkt het

1 Draw different sketches so you know which figure you want to make.

2 Paint the figure with PRIMO luxury acrylic paint and leave to dry.

3 Draw details with Plus Color markers. Leave to dry.

4 Cut out details from foam rubber and glue these on with a glue gun.

5 Draw a face with Plus Color markers.

A TIP: The small figures weigh almost nothing, and by attaching a small string for hanging, they can be transformed into decorative hanging decorations on a spring branch.
