

A bright idea..

v16229

Recycled materials are fun to work with and provide a lot of creativity and imagination. Collect old light bulbs and make these lovely, small sculptures. A different idea ... TARGET GROUP: Infants/lower juniors (preschool-Y3) and juniors (Y4-Y6)

Hoe werkt het

- 1** Collect old light bulbs.
- 2** Mix plaster compound with water following the instructions on the bag.
- 3** Pour the plaster into disposable cups.
- 4** Insert the light bulb fitting into the wet plaster.
- 5** Cut the disposable plastic cup away from the plaster when dry.
- 6** Draw a face and patterns on the light bulb with Posca markers.
- 7** Varnish the sculpture for better durability.
- 8** A tip: Wash and dry the light bulb before drawing on it, thus removing any layers of grease or dirt, enabling the Posca marker to adhere optimally.
