

Een armband met Nabbi strijkkralen gemaakt op de Rainbow Loom

v13962

Deze armband met Nabbi strijkkralen en gekleurde elastiekjes is gemaakt met de mini loom die is bijgesloten in de Rainbow Loom set. Ook elastiekjes en sluitingen zijn bijgesloten.

Hoe werkt het

1. Depending on the desired length of the bracelet, put 17-20 Nabbi fuse beads onto the equivalent number of rubber bands; they are matching colours in this example or otherwise according to your taste.

2. Remove the middle row of posts from the loom. Put a rubber band on the mini loom hook and twist it once around the hook as shown.

3. Use the hook to pull a new rubber band through this rubber band like a figure eight.

4. Attach the joined rubber bands onto the two outer posts on the loom as shown. Put a new rubber band on the mini loom hook and twist it twice around the hook.

5. Pull a new rubber band through the twisted rubber band and attach it as a pair onto the same posts as the previous pair.

6. Attach one of the rubber bands with a Nabbi bead (green) onto the posts on top of the other two "rubber band pairs".

7. Pull the rubber band at the very bottom over the post at each side and release.

8. This is what one end of the bracelet looks like.

9. Pull a new rubber band through a double-twisted rubber band and attach it onto the posts. Lift the bottom "rubber band pair" over the post on each side and release.

10. Attach a rubber band with a Nabbi bead (blue) onto the posts and pull the (green) rubber band over and release.

11. Continue this process. Alternate between a rubber band with and without a Nabbi bead. Lift each third rubber band over the posts and release.

12. When you have reached 2cm before the desired length of the bracelet, make a figure eight from a rubber band.

13. Put this rubber band onto the posts. Lift the bottom rubber band over the posts and release.

14. Put a rubber band - without twisting it – onto the two posts.

15. Lift the bottom rubber band over the posts and release.

16. Carefully remove the bracelet from the posts on the loom.

17. Remove the two outer rubber bands from each of their loops.

18. Attach the small fastener in the loops.

19. Fasten the bracelet in the loops at the opposite end of the bracelet.
