

Reindeer made from Papier-Mâché Cones, Silk Clay and Foam Rubber

v13933

These two reindeer are each made from a papier-mâché cones. Feet, noses, eyes and a tassel at the top are all made from Silk Clay and pushed onto the cone. The antlers are cut out from foam rubber and attached onto the cone with glue.

Hoe werkt het

1. Paint the bottom of the cone with brown matt A-Color craft paint (for the body) and red matt A-Color paint at the top (for the hat). Leave to dry.

2. Make the feet, the nose, the eyes and a tassel for the hat from Silk Clay. Push all the parts onto the the cone – without using glue.

3. Antlers: Print out and cut out the template which is available as a separate PDF file for this idea. Draw the outline of the template onto foam rubber and cut out. Use a glue gun for attaching the antlers to the cone.
