

Papieren paard om op te hangen

v12009

Een prachtig paard geknipt uit Colorbar karton. Aan elkaar gelijmd met dubbelzijdig klevend folie. Opgehangen aan katoendraad met een parelmoer kraal.

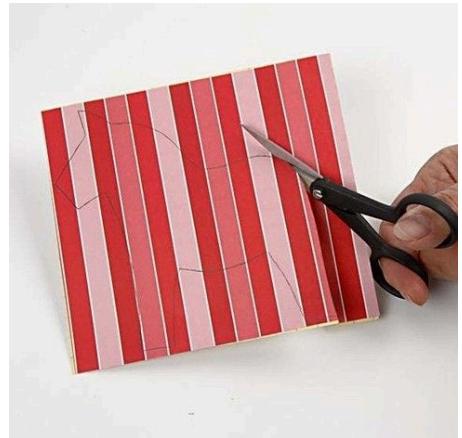

Hoe werkt het

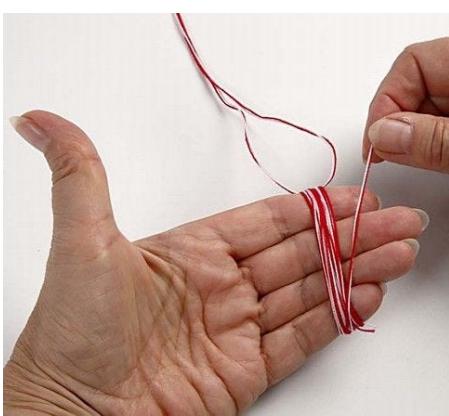

1. Remove the protective layer on the double-sided adhesive foil tape and put a piece of card on top.

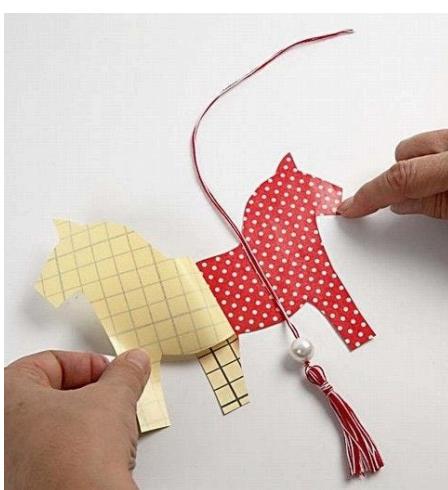

2. Use a template to draw the motif onto the paper.

3. Cut out the horse.

4. Wrap cotton yarn around your fingers to make a tassel.

5. Pull a bead onto the string for hanging. Remove the other protective layer of the double-sided foil tape and put the string on top.

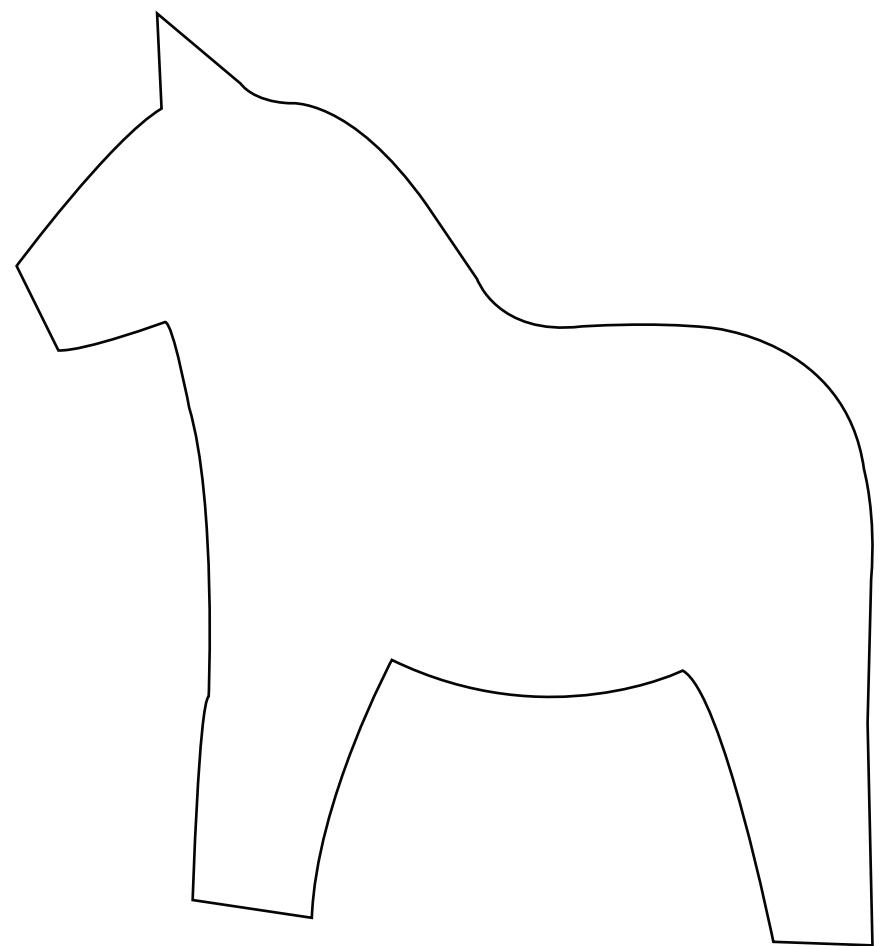

6. Cut another horse. Put it onto the glue-side of the first horse with the string in the middle of the two and with the dotted side up.

7. You may glue a cake napkin around the horse. Trim.
