Paintings for the cool ones

v1437

Hoe werkt het

1 Paint the panel in a light colour.

2 While the paint is wet, make small lines in a darker colour, use the basic colour to even out the colour.

3 Make prints from the weels of a legocar, lace ribbon or what ever you like.

**4** Write a text with the use of a Lettering stencil and a permanent marker.

5 Make prints by using nut, small felt figures or what ever you want.

6 Paint screws, bolts, nuts etc in a strong colour.

7 Make barbed wire by winding bonzai around it self and nip off the ends.

8 Glue the things on the panel.

9 Attach the barbed wire to the panel using glue.

10 Attach the plate in the frame.
