# Glass paint

v1429

Hoe werkt het

1 Cut out a random pattern from double sided tape, remove the backing and mount it on the glass.

2 Paint a thin layer of glass paint on the back side. Let it dry.

3 Paint a thick layer on the front side. Let it dry.

4 Cut along the border of the patterns using a craft knife.

5 Remove the safty layer and the pasting.

6 Decorate with 3D Snow effect.
