

## Schild

v11197

Prachtig ridderschild gemaakt van slaapmat, aan elkaar gemaakt met dubbelzijdig klevend tape en geverfd met Plus Color.

### *Hoe werkt het*

**1** Draw a shield free-hand on the sleeping mat in the size you want your shield.

**2** The parts used for the shield are: 2 large pieces for the shield itself 1 small "shield" for decoration, 6-12 squares to look like rivets, and 2 strips for the handle.

**3** Cut four holes in one shield as shown here.

**4** If necessary strengthen the straps for handles with cloth tape before attaching them.

**5** Attach the straps through the 4 holes as shown and fix them with cloth tape.

**6** -

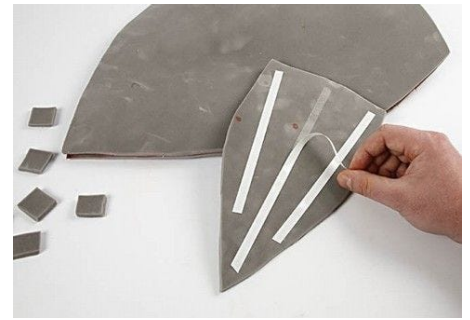

7 -

**8** Assemble the two large pieces together with double-sided adhesive tape.

**9** Attach the decorative parts, the small shield and the rivets with double-sided adhesive tape.

10 -

**11** Paint a design onto the shield. The example here is done by dabbing Plus Color hobbypaint onto a foam stamp and then pressing the design onto the shield.

12 -

**13** The shield is now finished.
