

## Ridder helmen

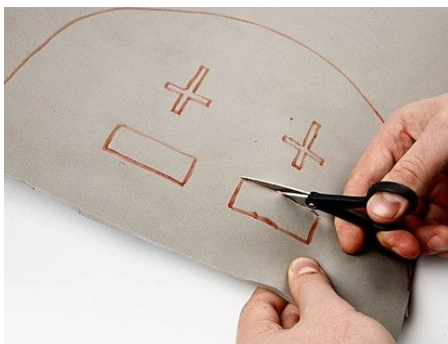

v11196

Een prachtige ridderhelm gemaakt van slaapmat met textieltape en dubbelzijdig klevend tape, gedecoreerd met knopen en vilt.

### *Hoe werkt het*

**1** Print and cut out the pattern. Then draw the parts onto the sleeping mat.

**2** Cut out the parts.

**3** Put the triangles together with cloth tape as illustrated.

**4** Use double-sided adhesive tape to attach the visor onto the helmet.

**7** Also attach the strips using double-sided adhesive tape.

**9** Cut off the excessive ends.

**11** Take extra strips and cut them into points at the ends.

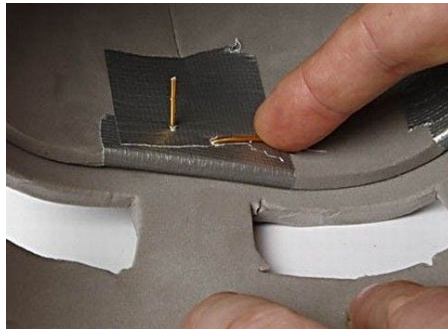

**12** Attach the strip, starting on the visor as shown.

**13** Make "brads" from buttons and bonsai wire as shown.

**15** Fasten the "brads" onto the helmet by pushing them through the foam.

**16** Bend out the legs of the "brad" on the reverse and cover with a piece of cloth tape.

**18** Cut 6-10 strips (each approx. 1 x 50cm) in textured acrylic felt for helmet adornment.

**19** Cut the ends into a point.

**20** Take one of the strips and pull it through a "brad" as shown.

**21** Then attach it onto the top of the helmet.

**23** Now tie on the remaining felt ribbons with the fitted ribbon.

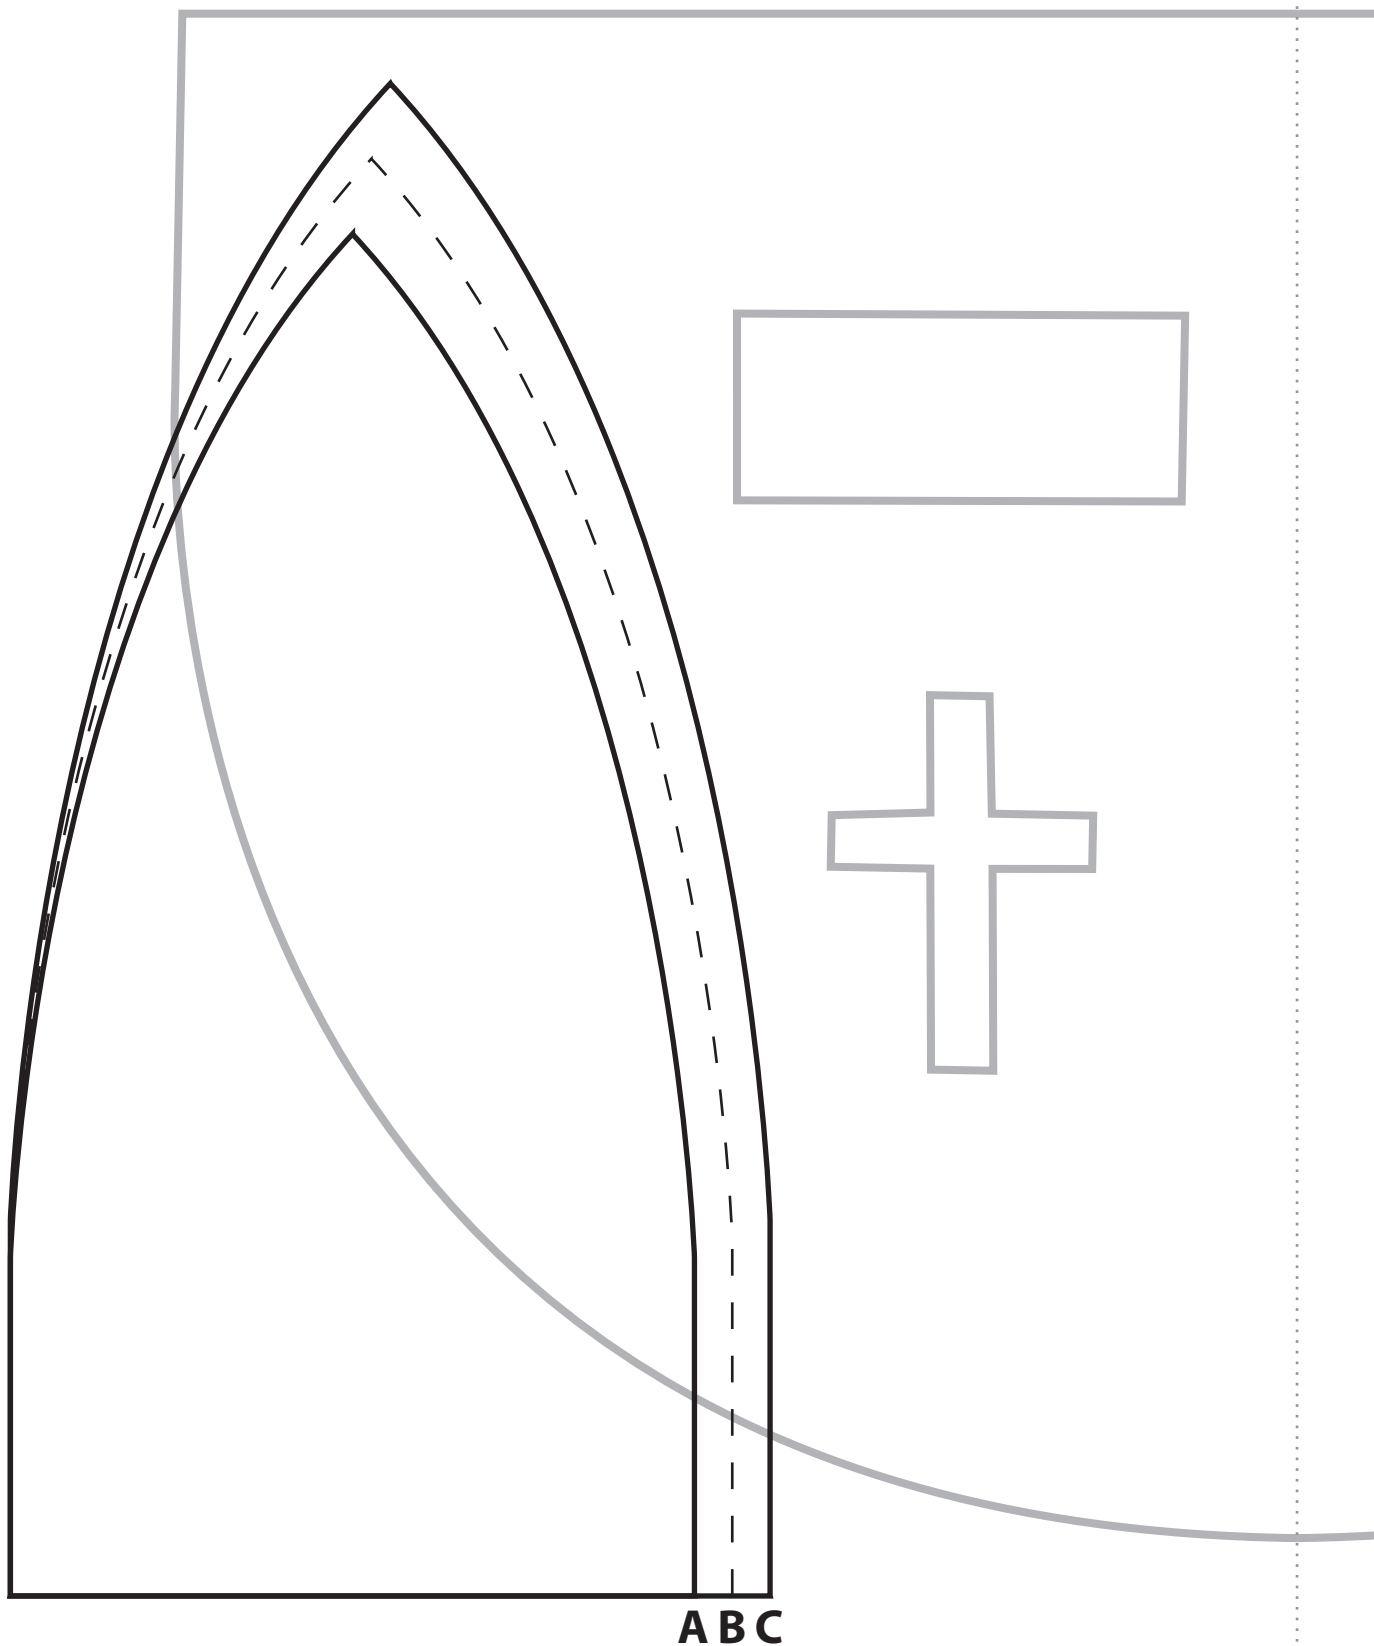

**25** The finished helmet.

**Variant of the helmet.** This variant is made without visor and only with a nose protector and painted with Plus Color Hobbypaint. The helmet has been painted in two stages; first to cover and then patted once with foam stamp to obtain structure.

**A** - 54 cm - Approx age 5-9.

**B** - 57 cm - Approx age 10-12.

**C** - 60 cm - Addult size.
