Sleutelring met leerkoord
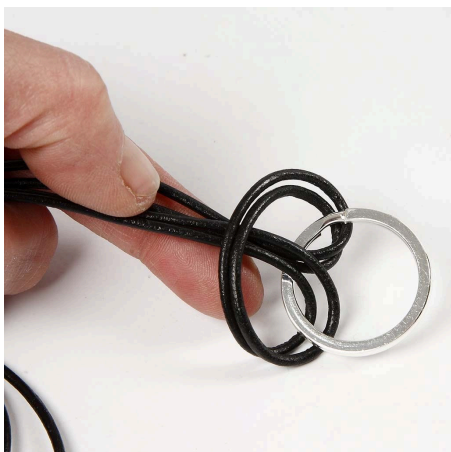

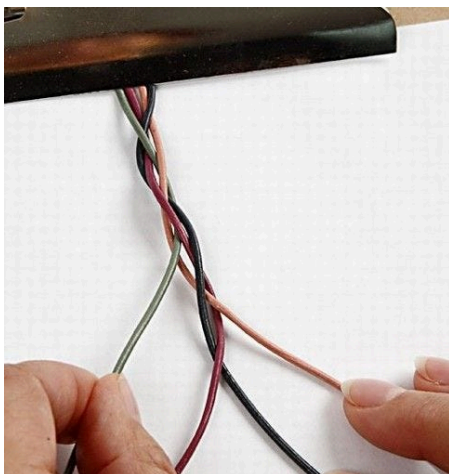

v11133

Sleutelhanger met hanger van leer. Hippe uilen gemaakt van zwart krimpfolie en houten kralen.
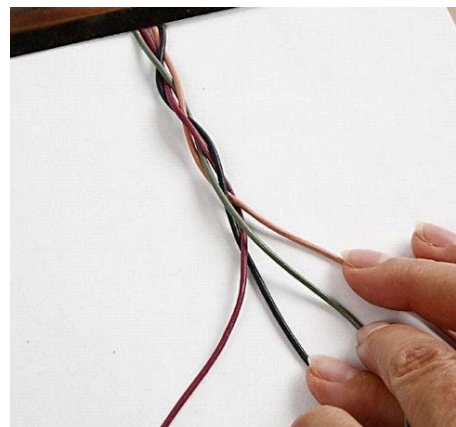

Hoe werkt het

**1** Cut 2 x 15cm leather cord. Fit these in the keyring.

**2** Plait with 4 cords – plait the leather cord as shown in picture 2, 3 and 4.

**3** Plait with 4 cords.

4 Cut off the ends.

5 Glue the ends together and attach an end cap.

6 Cut a 5cm piece of leather cord. Put this piece through the eye of the end cap.
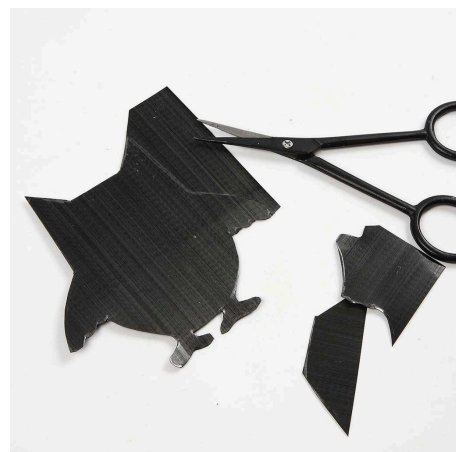

7 Glue on the bead.

11 Draw a design on a shrink plastic sheet. Please note that the motif shrinks to slightly less than half size.

12 Cut out the design.

13 Make a hole using a paper punch or use a hole punch. Paint with poster hobby marker.

14 Put it in the oven at 170 degrees for approx. 1 minute. The design will start to shrink and twist. Take it out when it is flat again – use tweezers if necessary.

15 Fit a round jump ring.

16 Attach to the keyring.
