

Organiser gemaakt van vilt

v11342

Een trendy organiser om op te hangen aan de muur, genaaid van Harmony vilt met acryl garen.

Hoe werkt het

2 Fold the two sides and sew. This is where you can decide on the shape of the cylinder and how much V-shape you want it to have.

3 Draw and cut the base.

4 Sew in the base. Here we have used button stitch.

5 Cut a hole for hanging in the top of the organiser and sew in a ring for reinforcement.
