

Schort met stempelopdruk

v11323

Een vintage schort gemaakt met zelfklevende sjablonen en masking tape.

Hoe werkt het

1 Use masking tape to create the vintage stripes. Attach the self-adhesive stencil where you want your design. Press with a sponge. Move the stencil around as you go along. Let the apron dry completely before iron-fixing it with an iron for approx. 5 min. at high heat. Put a piece of grease proof paper between the fabric and the iron.
