

Kerstkaarten met harten

v11697

Kerstkaarten in traditioneel rode en witte kleuren gedecoreerd met een lieflijk hart.

Hoe werkt het

1. Cut a piece of red card measuring 15 x 30cm. Fold in half. Cut a piece of patterned card measuring 14 x 14cm and glue it onto the piece of red card.

2. Cut a piece of white patterned card measuring 5 x 13cm. Make a hole in each corner with a hand punch and insert brads. Glue it onto the left side of the card. Cut a white piece of patterned card measuring 1 x 13cm and glue it onto the right side of the card.

3. Cut a heart from red card. Draw the same heart on white patterned card and cut 1/2cm inside the line. Glue it on top of the red heart. Cut two holes in the top of the heart with hole punch pliers and insert a ribbon. Fix the heart onto the card with 3D foam pads.
