

Rustiek papier-mâché

v12056

Decoreer met een paar simpele materialen zoals ribbelkarton, hout fineer, kurk en leerkoord - en maak de mooiste rustieke decoratieve items.

hoe werkt het

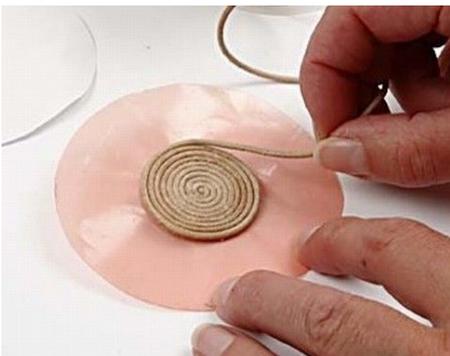

1 Cut a long piece of corrugated board the same width as the edge of the box lid.

2 Glue the corrugated board onto the edge of the box lid with a glue gun.

3 Cut a circle from a double-sided adhesive sheet (approx. 10cm).

4 Make a spiral circle with the leather cord on the double-sided adhesive sheet.

5 Cut a piece of leather cord measuring 40cm and fold it twice.

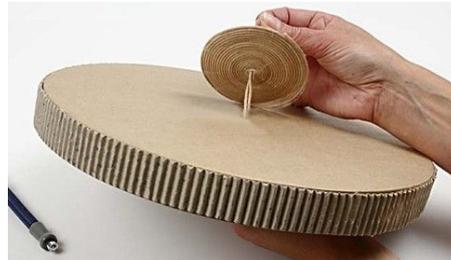

6 Then tie a knot in one end and thread on the wood bead.

7 Make a hole in the middle of the leather spiral. Pull the folded leather cord through the spiral and the double-sided adhesive sheet.

8 Make a hole in the middle of the lid with an eyelet setter.

9 Then remove the protective layer of the double-sided adhesive sheet and pull the leather cord through the hole in the box lid.

10 Finally thread a bead onto the leather cord and glue it onto the inside of the box.
