

Zonnige kerst met vlechtstroken

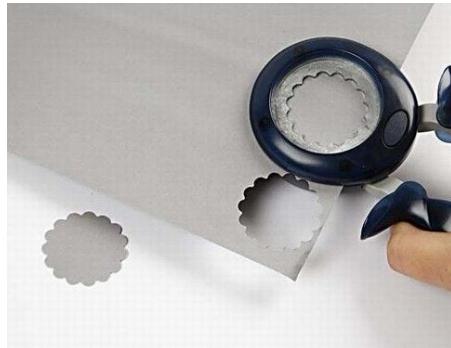

v12040

Deze decoratie is gemaakt van twee papieren vlechtstroken die iets smaller geknipt zijn, gebogen en op een rond karton gelijmd zijn.

Hoe werkt het

1 Divide each of the two narrow weaving paper strips into four equal pieces.

2 Punch out two card circles using the Squeeze Punch.

3 Double over six of the weaving paper strips and glue them onto the card disc with Clear Marker as shown in the photo.

4 Glue a piece of silver thread onto the back of the card circle together with two or three feathers.

5 Glue a card circle on top.

6 Attach a wood sticker onto both sides and decorate the silver thread with a couple of mother-of-pearl beads.
