

## Kaarten maken

v12081

Decoratie en sterren zijn gemaakt van Vivi Gade Design papieren vlechtstroken van de Copenhagen serie. De tassel is gemaakt van gestreept katoenkoord.

### *Hoe werkt het*

**1** Cut a piece of string for hanging measuring 20cm.

**2** Make a tassel from striped cotton string by winding the string around three fingers until you have achieved the desired thickness.

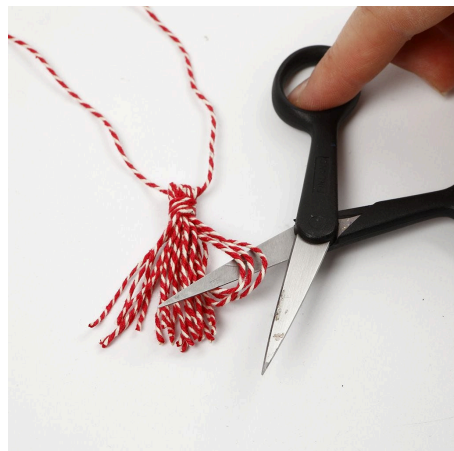

**3** Insert the string for hanging inside the top of the loop as shown in the photo.

**4** Gather the tassel at the top with one end of the string.

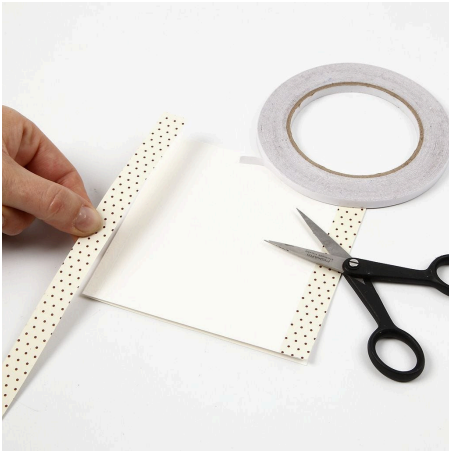

**5** Tie a knot and let the excess string fall down to become a part of the tassel.

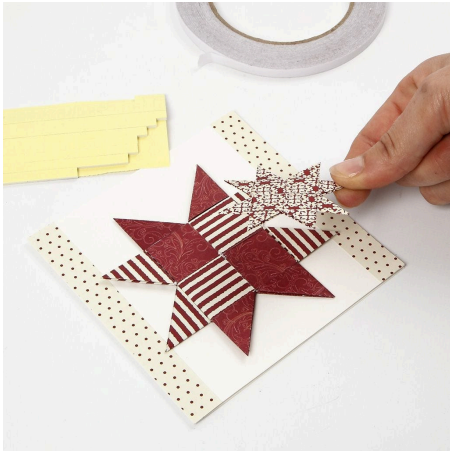

**6** Cut open the loops at the bottom.

**7** Attach a weaving paper strip to each side of the card using double-sided adhesive tape.

**8** Attach two flat weaving paper strips onto the card – the large one with double-sided adhesive tape and the other one with 3D foam pads (please see idea No. 1331 for instructions regarding how to weave a star).

**9** Make a hole in the top middle of the card with hole punch pliers. Insert the string with the tassel through the hole and tie a knot.
