

Gehaakte retro vierkanten

v12376

De verschillende kleuren die voor deze retro vierkanten zijn gebruikt zorgen voor een prachtig resultaat. Gebruik No.4 haaknaald en Fantasia garen. Te gebruiken voor decoratie of verbind er een aantal samen tot kledje.

Hoe werkt het

1. Crochet 6 chain stitches.

2. Make a ring by finishing with a slip stitch in the first chain stitch.

3. Using the same colour yarn, cast 3 chain stitches and crochet 15 basic treble stitches into the ring. Finish the ring with a double crochet stitch in the first basic treble stitch.

4. Change to a different colour yarn and cast 3 chain stitches (these 3 chain stitches form the first basic treble stitch). Then crochet a basic treble stitch into the same hole, so 2 basic treble stitches are formed in the same hole.

5. Crochet a basic treble stitch into the next 2 holes and 2 basic treble stitches in the next and same hole. Finish the row with 3 chain stitches which form the corner. Repeat the following 4 times: 2 basic treble stitches into the same hole, 1 basic treble stitch, 2 basic treble stitches in the same hole, 3 chain stitches.

6. Change to a different colour yarn. Start after a corner and cast 3 chain stitches, 1 basic treble stitch into the same hole as the chain stitches, 1 basic treble stitch into the next 4 holes and 2 basic treble stitches in the last hole.

7. In the hole in the corner, crochet 2 basic treble stitches, 3 chain stitches and 2 basic treble stitches.

8. Repeat the following for the round: 2 basic treble stitches, 4 x 1 basic treble stitches, 2 basic treble stitches, 2 basic treble stitches, 3 chain stitches, 2 basic treble stitches.

9. Change to a different colour of yarn for the last round. Start after a corner with a double crochet stitch in each hole, a total of 12 times, to the next corner. In the corner crochet 3 double crochet stitches and continue like this for the rest of the round. Finish and secure the ends.
