

A Christmas Card with Vivi Gade Design

v12806

Attach design paper, self-adhesive rhinestone half-pearls etc. to a blank greeting card (all from Vivi Gade Design series) using 3D foam pads and an E-Z runner; a dispenser with double-sided adhesive pre-cut strips. Decorate the peg with masking tape.

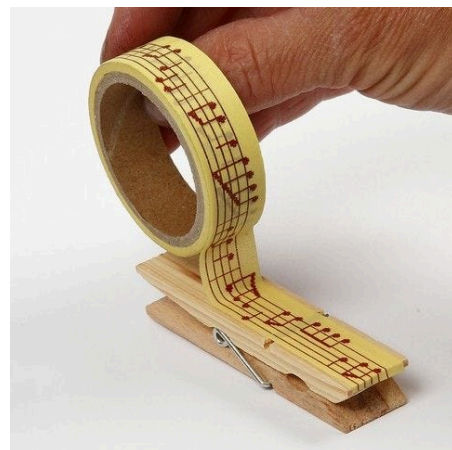

Hoe werkt het

1. Cut two individual hearts for weaving using the template. Weave them and secure them using E-Z runner.

2. Cut a heart and write text with a gel pen. Attach the card onto the card using E-Z runner. Attach a handle to the woven heart and then attach the heart onto the card using 3D foam pads. Attach self-adhesive rhinestone half-pearls in each corner.

3. Decorate the peg for hanging with self-adhesive masking tape.
