

Spaghettitopje gedecoreerd met flexibele sjablonen

v12783

Een katoenen spaghettitop die gedecoreerd is met flexibele sjablonen en versierd met 'parels' van de Parel Pen.

Hoe werkt het

1. Place the stencil sheet on top of the sun top - adhesive side facing down. Use a firm, absorbing underlay (a newspaper or paper) underneath the sun top.

2. Apply the paint onto the edge of a plastic scraper.

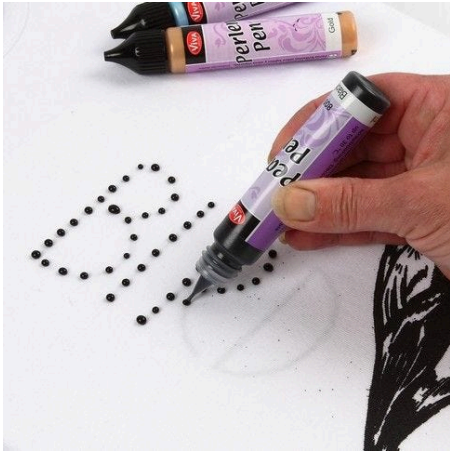

3. Pull the scraper over the stencil sheet with a firm pulling action down towards yourself.

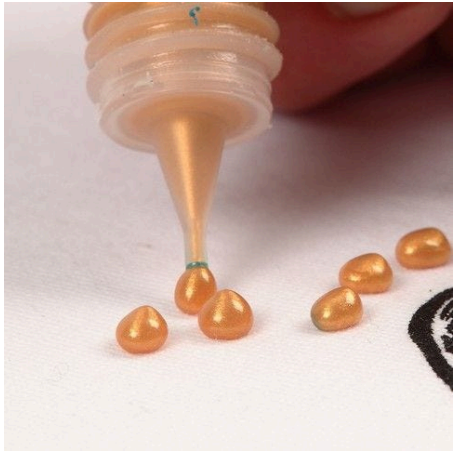

4. Remove the stencil sheet and let the print dry. Subsequently fix the print with an iron.

5. Write the text on the inside of the sun top and apply dots on the text with a Pearl Pen.

6. Hold the Pearl Pen slightly above the fabric and squeeze to set the dot – this is how to achieve the pearl effect. Let it dry for 24 hours.
