

Platte kerstbal met rendier

v12670

Snij het rendier uit tissue papier. Bevestig het rendier op de platte kerstbal met decoupage lijmlak. Doe glitter in de bal.

Hoe werkt het

1. Remove the toggle jacket on the top of the bauble.

2. Die-cut the reindeer from tissue paper using the Big Shot machine.

3. Apply a coat of glass decoupage lacquer onto the flat glass bauble with a brush and attach the design.

4. Fold a small paper cone and pour glitter into the bauble through the cone. Put the toggle jacket back onto the bauble and attach a bow.
