

## Armbanden met glaskralen

v12586

Glaskralen, zilveren Fashion Links en hangers zijn geregen op 1mm elastisch sieradenkoord en afgewerkt met vier of vijf strakke knopen.

### *Hoe werkt het*

1. Attach an oval ring in the loop of the pendant.

2. Thread the beads and pendants onto the elastic beading cord. Always finish with a bead with a large hole to hide the knot inside.

3. Tie four or five very tight knots – preferably reef knots. Cut off the ends and pull the knot inside a bead.
