

Kaarten en tafeldecoratie met harten en een bruidspaar

v12938

Deze serie kaarten is gemaakt door papier en karton van de Color Bar serie op een kaart te bevestigen en daarna te decoreren met uitgestanste harten, een houten bruidspaar, een stuk hennepkoord en stippen gemaakt met een Parel Pen.

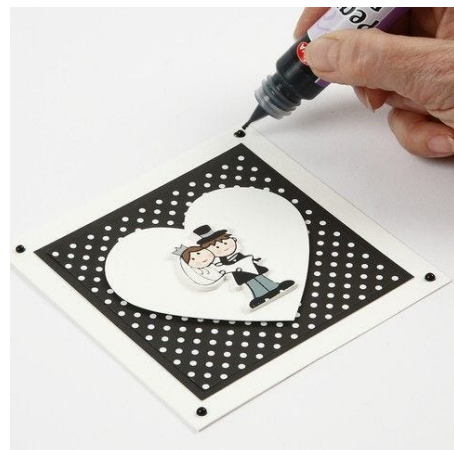

Hoe werkt het

1. Cut a piece of black card slightly smaller than the blank greeting card and a piece of dotted paper slightly smaller than the black card. Attach both onto the greeting card using double-sided adhesive tape.

2. Attach the married couple wood sticker to the punched-out heart using double-sided adhesive tape. Attach the heart onto the greeting card using 3D foam pads.

3. Decorate the greeting card by making dots with a Pearl Pen.

4. Use hole punch pliers for making a hole in the card and tie it together with a piece of natural hemp.

5. Table decoration: paint the edges of the papier-mâché letters with Plus Color craft paint. Cover the flat surfaces on the front and back with paper and decorate with hearts, married couple wood sticker and a piece of natural hemp.

6. Paint the edges of the matchbox (except the striking side). Attach paper to the large, flat surface using double-sided adhesive tape. Decorate with a punched-out heart and a piece of natural hemp.
