

A Christmas Tree with Silk Clay Christmas Decorations

v13383

This small green Christmas tree is modelled from Silk Clay modelling clay. The tree trunk, the Christmas decorations and the Christmas star are modelled from Silk Clay in different colours and pushed onto the Christmas tree.

Hoe werkt het

1. Model a cone from green Silk Clay. Use different colours of Silk Clay for rolling very small balls for Christmas decorations. Push these onto the cone. Finally model a flat brown foot/trunk and a yellow star. Push these onto the bottom and the top of the tree respectively.
