### *hoe werkt het*

1. Put a piece of plastic inside the shopping bag, protecting the back in order to avoid smudging. Make vertical stripes with a foam brush, dabbed in Textile Color fabric paint. A TIP: you may put on masking tape for painting the stripes accurately.

2. Apply ink to the foam stamp from the ink pad and make a print on the shopping bag.

3. When dry write text with a fabric marker.

**4.** Fix the finished and dry decoration with an iron. Place a piece of baking paper between the iron and the fabric. This guarantees that the print keeps its quality after washing.
