

Stijlvolle armband met oorbellen

v1841

Moderne sieradenset gemaakt van leerkoord en tubekraal met strasstenen.

Hoe werkt het

1 The beautiful rhinestones sparkle beautifully against the black leather.

2 The bracelet is made by placing four pieces of 2mm leather doubled over. Thread a rhinestone tube onto the assembled leather cords and finish with a knot. Put end caps on all cord ends, securing these with glue.

3 Earrings are made with beads on an eye pin. Finish by making a loop on the eye pin. Use the loop for assembling the earring pendant to the ear wire.
