

Box elves

v1270

Hoe werkt het

1 Measure every surfaces on the lid. (ex. edge on the inside: 1 cm, edge outside: 1,5 cm, the width of the lid: 5cm, edge outside: 1.5cm, edge inside: 1cm = 10cm. add 1mm to each tuck = 4mm. 10,4 in all). This is one measure. The measure is the same proportions on the other sides. (in this case the lid is square, and the measure for the paper is 10,4x10,4cm) .

2 Draw the measures on the paper.

3 Fasten the paper in the middle of the lid with decoupage lacquer or VTR adhesive. Add the glue to the edge.

4 Cut a little wedge, and press the paper against the edge.

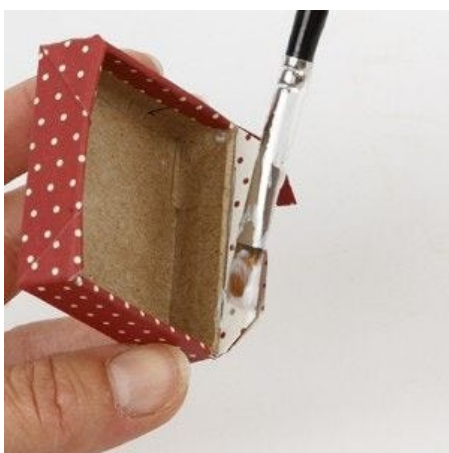

5 Press the corners of the paper with a bone folder.

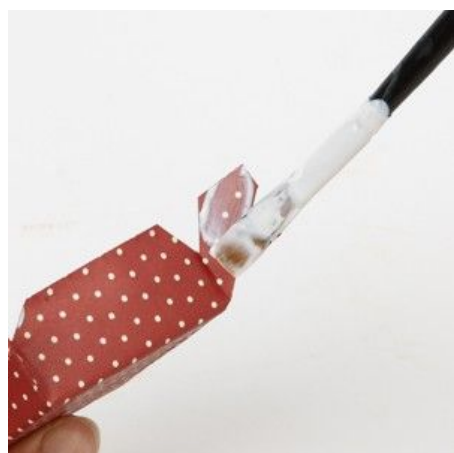

6 Fold against the middle.

7 Cut the edges of the corners.

8 Add glue to the flaps

9 In the corners as well.

10 Fold it around the edge.

11 Paint the cone Bordeaux.

12 Pull a golden string thru the tip of the cone. Tie a knot.

13 Use a glue gun to assemble the head to the box.

14 Attach the hat using a glue gun. Finish with a knitted tube for the scarf.
