

## Een paspoorttas gedecoreerd met transfer papier

v14756

Deze katoenen zakje zijn gedecoreerd met opgestreken designs op transfer papier en textielstiften.

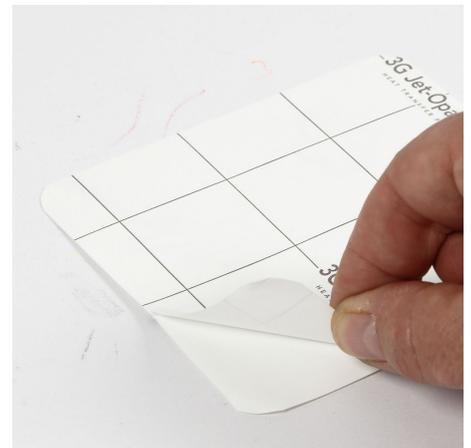

### *hoe werkt het*

**1** Cut a piece of transfer paper to fit the size of the neck pouch; for example 10 x 11 cm. Decorate with textile markers according to your imagination.

**2** Place a piece of cotton wool inside the neck pouch to prevent an imprint of the zip at the back when the design on the transfer paper is ironed onto the front.

**3** Separate the paper from the backing paper and place the transfer paper onto the neck pouch with the design facing up.

**4** Protect the design with baking paper and iron the designs onto the neck pouch.
