### *Hoe werkt het*

**1** Flower decoration with rhinestones: Print the template which is available as a separate PDF file for this idea. Cut out, copy onto design paper and cut out. (In this example we have made 10 flowers; five large and five small). A TIP: print out five templates, attach the template onto the design paper and cut through both layers at once.

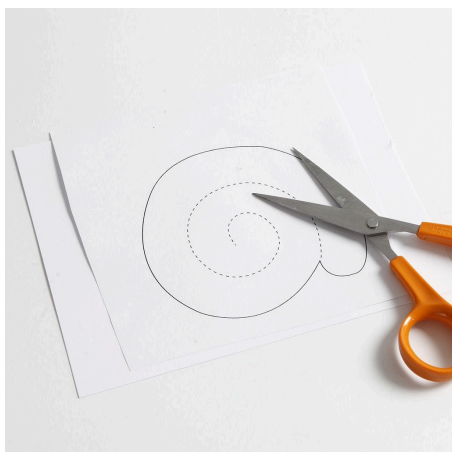

**2** Bend the petals on each flower as shown. You may use a pencil to assist.

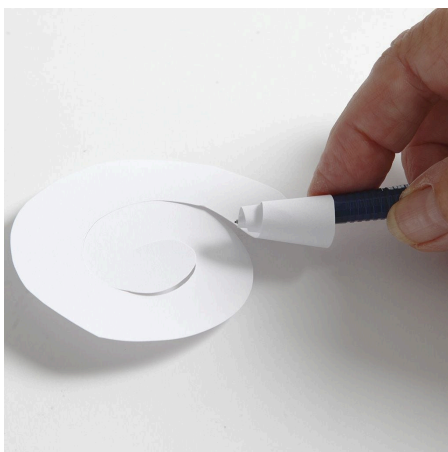

**3** Wrap the present and glue on the flowers according to your own taste. For example arranged on two of the sides of the present. Decorate with a self-adhesive rhinestone in the middle of each flower.

**4** Flower decoration – roses: Print the template which is available as a separate PDF file for this idea. Cut out, copy onto a piece of card and cut out. (In this example we have used eight roses).

**5** Roll the shape onto a pencil to make a rose.

**6** Put a small blob of glue in the middle of the rolled up paper rose, tighten and apply more glue as you go along.

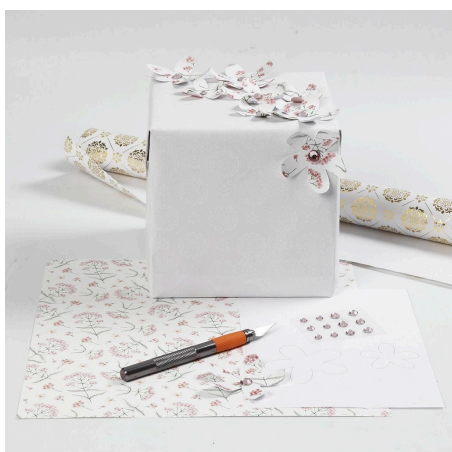

**7** Finish with a blob of glue on the end of the paper and attach the rolled-up rose on this.

**8** Wrap the present and glue on the roses according to your taste.
