

Dienblad met vier kaarsen en glitter kerstballen van glas en terracotta

v14785

Het dienblad is geverfd met Chalky Vintage Look verf. Op het dienblad zijn vier kaarsen geplaatst. De terracotta kerstballen zijn geverfd met Art Metal verf en de glazen ballen zijn gedecoreerd met glitter.

Hoe werkt het

1 Paint the tray with Chalky Vintage-Look paint. Dilute with water if you wish to allow the grain of the wood to show through the surface.

2 Dab Art Metal paint onto the terracotta baubles. Leave to dry. TIP 1: For additional contrasting colours you may use two colours and let them dry between each application. TIP 2: You may sprinkle glitter onto the wet paint.

3 Separate the metal hanger with the loop from the bauble. Fill the bauble with special glue using a pipette. Shake it to distribute the glue evenly and pour the excess glue back into the bottle. Pour glitter through the hole in the bauble using a funnel made from a rolled up piece of paper. Shake again and reattach the metal hanger.

4 Place each of the four pillar candles on a giant metal bottle cap which is secured in the tray with power tack. Decorate with spruce and lametta.
