Maak zelf je eigen stijlvolle huwelijks uitnodigingen met satijnlint, manilla tags en puffy stickers.

Hoe werkt het

- 1 Tie a satin ribbon measuring approx. 120 cm four times around the invitation.

- 2 Make a bow by arranging a ribbon three times around in a circle as illustrated in the photo.

- 3 Gather both ends in the middle and tie them together to finish the bow.

- 4 Print out your text and cut it out as a manilla tag following the template attached as a PDF file on this page.

- 5 Make a hole in your cut-out manilla tag and a white manilla tag at the same time using a screw punch.

- 6 Tie both manilla tags onto the wedding invitation.

7 Tie the bow onto the ribbon, pulling the ribbon together.

8 Trim the ends.

9 Decorate the manilla tags with puffy stickers.
