

Pannenvlap van textielgaren

v15145

Deze pannenvlap is snel en eenvoudig te breien: Brei alle steken (ribbelsteken) met textielgaren dat van de buitenkant van 100% katoen is en aan de binnenkant gevuld is met hittebestendige nylonvulling. Voor de lus is een riempje gemaakt van Faux Leather papier.

Hoe werkt het

1 It's important to knit a test square to test your tension. If there are too many stitches on a 10 cm test square, change to thinner needles and if there are too few stitches, change to thicker ones. Gauge: 10 x 10 cm = 12 stitches and 24 rows (garter stitches on all stitches and rows).

2 Cast on 24 stitches on No. 8 circular knitting needles and knit plain stitches on all rows (garter stitches) until the knitted piece measures 20 cm. Cast off and secure the ends on the back.

3 Faux leather paper strap (can be washed and is heat resistant): Cut a 2.5 cm wide x 13 cm long faux leather paper strip. Double over, and make four holes with hole punch pliers.

4 Sew on the strap with mercerised cotton yarn and secure the end by tying a knot underneath the strap.
