

Armband voor kinderen met houten kralen

v15540

Kleurige armbanden met houten kralen die zijn geregen op gekleurd elastisch koord.

Hoe werkt het

1 Find the correct length for your bracelet by measuring around the wrist with the elastic cord – don't forget to add extra length for the knot. Thread beads onto the elastic cord. Put the two cord ends together and tie a double knot.

2 You may hide the knot inside one of the beads.
