

Pooldieren van Foam Clay

STEP BY STEP 023

Inspiration: 15155

Cover the polystyrene cone bodies with Foam Clay modelling clay.

Attach arms, tails, ears etc. depending on the animal you make.

Push the antler onto the head without using glue. Use red Foam Clay for the nose and push in black plastic studs for the eyes.

Scarf: Twist two pieces of pipe cleaner.

Penguin: Cover the head with white Foam Clay first and then add black Foam Clay as shown.

Add white Foam Clay on the front of the penguin for a white tummy.

Twist and tie the scarf around the animal's neck and trim.

Make snow balls from white Foam Clay.

Make the penguin's beak from orange Silk Clay.

Make antlers from a piece of brown pipe cleaner.

Attach the skis and ski poles (made from small ice lolly sticks) whilst the Foam Clay is still damp without using glue.

You may also make a small snowman from balls.
