Lichtblauw op tafel

Deze tafel is rijk aangekleed met lichtblauwe decoraties: papieren bloemen, ballonnen, tassels, servetten en manilla tags.

Assemble the paper flowers as shown on the back of the packaging.

Put two tissue paper tassels together.

Fold them over each other.

Tie a ribbon in the middle. The ribbon must be long enough to be used for hanging and for attaching onto the balloon.

Unfold the napkin and then fold it in the middle as shown in the photo.

Fold the long end so that the fold is approx. 4,5 cm wide.

Turn over the napkin and bend one end towards you.

Roll the napkin to a tower.

Fill the balloon with helium. Tie a knot and tie a ribbon onto the balloon.

Tie on the tassel.

Fold the end to secure the napkin and to hide the end.

Attach a paper clip with a bow for the finishing touch.

Write a name on manilla tags and use them for place cards. We recommend a black Uni Posca marker for manilla tags in pale colours and a white Uni Posca marker for dark coloured manilla tags. You may push a flower with a stalk onto the manilla tag for further decoration.
