Uitnodiging voor een huwelijk met trouwjapon en smoking

Maak zelf je uitnodigingen voor je huwelijk met de bruid en bruidegom op de voorkant.

Cut a piece of laced card the same size as the die used in the die-cutting and embossing machine. Place the laced card and the die between the platform and the cutting mat and punch out the design.

Attach the dress onto the left-hand side of the front of the greeting card using a glue pen. Apply small dots of glue from the glue pen onto the dress and attach the dress onto the front of the greeting card.

Cut a piece of white card for the bride's and the groom's names. Glue it onto a piece of laced card. Cut it in half and glue both halves onto the front of the greeting card.

Attach self-adhesive rhinestones onto the shirt for buttons. Print or write the actual invitation on off-white paper and glue it onto the inside of the greeting card as shown in the photo.

Cut away part of the front of the greeting card as shown in the photo.

Use the template which is available as a separate PDF file on this page. Cut out the small parts for the groom's dinner jacket. Make one part of the shirt from off-white card and two parts from black card for the collar. Score and fold as shown in the photo.

Decorate the envelope with laced card and white card for the name and address.

See our matching ideas: [Place card 15657](#) and [Menu card 15658](#).

Punch out a tie for the groom.

Trim the tie to fit the shirt and glue the cut-out parts onto the right-hand side inside the greeting card.
