## Babuska's van Copenhagen stof

Genaaid van Vivi Gade Copenhagen Design stof. Het gezicht is geborduurd op het vilt met katoengaren. Naai aan elkaar en vul op met polyester vulsel. Gebruik Vivi Gade Design vilt om op te hagen.

01 Cut out the parts using the template and leave a 7mm seam allowance.

02 Sew the head and body together.

07 Remove the protective paper and iron the face onto the body.

08 Use Vliesofix for ironing on the bows.

03 Cut the face from felt.

04 Use a 24hour pen for drawing the face onto the felt. Then embroider using outline stitches.

09 Fold a piece of ribbon; place it between the two body parts and sew together, leaving a 3cm hole at the bottom.

10 Fill the body lightly with polyester stuffing and sew together.

05 Colour the cheeks with a red colouring pencil.

06 Iron Vliesofix on the back of the felt face.
