Armbanden gemaakt van foam rubber

Deze prachtige, kleurrijke armbanden zullen zeker populair zijn bij de meisjes. Foam plaat is gemakkelijk te naaien met een naald en comfortabel om de pols te dragen. Het organza lint is op de armband genaaid met stiksteken.

01
Use a pair of scissors or a knife to cut a piece of foam rubber measuring approx. 16 x 2cm.

02
Sew an approx. 40cm long piece of organza ribbon onto the piece of foam rubber. You may use different types of stitches.

03
Sew small wood or glass beads and metal beads onto the first half of the foam rubber bracelet before reaching the middle.

04
Sew the clay flower onto middle of the foam rubber bracelet. Sew the bead combination onto the other half of the bracelet from the middle towards the other end in mirror image. Secure the thread well.

05
Variation: You may place two pieces of foam rubber on top of each other, one piece approx. 2.5cm wide and the other approx. 1cm wide. You may vary the edges of the bracelet by cutting a wave design
